

# THE BLAIRMORE ENTERPRISE

VOL XIX., NO. 35.

THE BLAIRMORE ENTERPRISE, THURSDAY, AUGUST 30, 1928.

\$2.00 PER ANNUM

Harry Meade, of the Bellevue Bakery, has decided to place a delivery bus at Pincher Creek, where his popular breads, pastries, etc., are in great demand. The Bellevue Bakery now has regular daily deliveries in Fernie, Natal, Michel, Coleman, Blainmore, Bellevue, Hillcrest and Pincher Creek.

On Saturday next, Mr. S. Trono, watchmaker and jeweler, will hold his annual hidden treasure sale. Hundreds of parcels to pick from, which contain such articles as fountain pens, ladies' wrist watches, indestructible pearls, clocks, jewelry, cut glass, etc. Every package is guaranteed to contain 50 cents' worth or more.

## QUARANTINE IS LIFTED

The ban which had been put into effect during the past two weeks, because of the appearance of a couple of cases of infantile paralysis in the district, has been lifted, effective at once.

At a meeting of the Blainmore Board of Health, held today, it was decided that the Blainmore schools be permitted to open at any time after Sunday, September 2nd, and that the ban on dances, church services, Sunday schools, theatres, etc., be lifted at once, as no further appearance of the disease has been reported.

## BELLEVUE FLOWER SHOW AND SPORTS MONDAY

The eleventh annual exhibition of the Bellevue Horticultural, Industrial and Poultry Society will open in the arena on Monday afternoon next, for the big general exhibition, and promises to be by far the biggest and best ever held. It is stated that in 1925 the number of entries was 1559 and that the number is annually increasing, and that at least 2000 entries will be made for Monday's competition. In addition to the general exhibition this year, the society is staging on Saturday, September 1st, a special exhibition for amateur gardeners and on Tuesday, the 4th, another special exhibition for local gardeners, so the big annual event in Bellevue will be a three-day affair.

Coupled with the exhibition will be a program of field sports for the holiday, Labor Day, starting with the third annual five-mile marathon at 12.30 noon. Bands will be in attendance during the sports and exhibition.

An added attraction this year will be the Arena carnival, which opens on Saturday night, September 1st, immediately following the special showing for amateur gardeners. The carnival will be continued till Tuesday night, and will carry with it the usual attractions and excitement, including the jittery dance.

All roads will be leading to Bellevue on Saturday, Monday and Tuesday.

The complete program will be distributed on Monday on the sports grounds.

## BLAIRMORE SCHOOLS TO RE-OPEN SEPTEMBER 4th

The Blainmore high and public schools will re-open for the fall term on Tuesday next, September 4th, with the following staff: Principal McPherson, Vice-Principal Sweeney, Misses Chrysal, Tompkins, Cox, McDonald, Pozzi, Brunetto, McVey, Smith and Warner and Mrs. Fleming.

## TOWN ENGAGES POLICE AND WORKS FOREMAN

Constable William Duncan, of the Lethbridge city police, was the successful tenderer for the position in Blainmore left vacant through the resignation of Chief Spence, and his official engagement was effected at a special meeting of the town council on Monday night.

Constable Duncan comes very highly recommended for the dual position of police and works foreman. He is a native of Scotland, married, with several children.

Constable Duncan was in town on Monday evening, returning to Lethbridge by the night train. He will likely be on the job here on Saturday.

A local sheik who has proposed to no less than seven Coleman girls in the past year and has been refused by all, says that his life is not worth living. Perhaps he would succeed if he would revise or modify the proposition and forget all about the instalments on the washing machine, the druggist's bill, the car and the home.

## MILLCREST MAN LOSES BROTHER-IN NOVA SCOTIA

Charles Naylor Hale, a brother of Thomas Hale, of Hillcrest, died at St. Martha's hospital, Thorburn, Nova Scotia, on August the 9th. Of his death, the New Glasgow Free Lance says:

He was born at Westville, a son of Mr. and Mrs. George Hale. When the call to the colors came, Naylor responded and went overseas with the 85th Battalion as an orderly to Col. Baisdon and Col. Borden. He was gassed and sent home as a casualty. As a result of the gassing, he never recovered his old-time vitality. He spent considerable time in Camp Hill hospital, but recovery was not to be his lot and the end came—suddenly at the last—as above stated. He was a war casualty just as surely as if he had laid down his life in blood-stained France. He was a man of cheerful disposition, bore his sufferings bravely and had a host of friends. He was only 39 years of age and is survived by his wife and four small children, five brothers and four sisters, Charles, William and Edward, of Westville; James, of Stellarton, Thomas, of Hillcrest, Alberta; Mrs. E. Robblee, New Glasgow; Miss Lucy, Stellarton, and Mrs. Robert Miller and Mrs. Blanchard Hough, of Fayette City, Pa.

## CASE OF INFANTILE PARALYSIS DEVELOPS NORTH OF BURNIS

A case of infantile paralysis developed with a little girl living north of Burnis last week end. The authorities were immediately notified and the patient was removed to an isolated building in east Bellevue for treatment.

At time of going to press, we learn that the child is recovering.

As a result of the two outbreaks in this district, every precaution is being taken by boards of health, acting upon recommendations of the district health officer, Dr. J. Olivier, and attending physicians. A ban has been placed against children congregating at theatres, Sunday schools, churches, etc., and the opening of Blainmore public school was postponed from August the 27th to September the 4th.

The Elliott family will likely come out of quarantine today.

## BLAIRMORE NET TEAM WINS

In the third and deciding match, played at Coleman yesterday, between Blainmore and Coleman for the championship of the western half of the C.N.E.L.T.A., the Blainmore club came out on the long end of a six to four point.

The Blainmore club will now play off with Cranbrook for the shield. Arrangements for the playoff will shortly be made. It is likely, however, that the match will take place on the Fernie courts, as it is felt that it is too late to play home and home games.

The results of Wednesday's games are as follows:

Men's singles—A. Hnatyshyn beat J. A. McLeod, 3-6, 7-5; Sgt. Jones lost to L. Lindoe, 6-3, 6-3; J. McPhail lost to R. Barnes, 6-3, 8-6, 6-4. Men's doubles—Hnatyshyn and Jones beat Barnes and McLeod, 6-3, 13-11; McPhail and Farmer lost to Lindoe and Gardner, 6-3, 7-5. Ladies' singles—Mrs. Kerr beat Mrs. Graham, 6-4, 6-3; F. Fraser beat Mrs. McLeod, 7-5, 6-2.

Ladies' doubles—Mrs. Kerr and Mrs. Jones beat Mrs. Graham and Mrs. McLeod, 6-3, 6-2; F. Fraser and E. Bennett lost to Mrs. Lindoe and D. Burns, 6-2, 6-4.

Mixed doubles—Mrs. Kerr and Sgt. Jones beat Mrs. Graham and L. Lindoe, 6-3, 6-0.

A married man is one who has two hands with which to steer a car.

WORLD HAPPENINGS  
BRIEFLY TOLD

Stephanos Skouloudis, premier and foreign minister of Greece in 1915 and 1916, during which he was a proponent of Greek neutrality, is dead.

Vancouver will be the scene of the 1929 convention of the Canadian Pharmaceutical Association, it was decided at a session of the convention in Toronto.

President Coolidge has accepted the resignation of Secretary Hoover from the cabinet and appointed Wm. F. Whiting, of Holyoke, Mass., to succeed him.

Unofficial announcement is made that the Western Canada Airways Ltd., will make Regina a stopping place on the trans-Canada air mail route, provided the municipal air harbor is put into proper shape.

Captain Donald MacMillan and his crew of 11 men will leave Anaktok Bay, Labrador, where they have been quartered during the past year and will start back to civilization at once, according to radio messages.

Petting parties and the recent increased use of cigarettes by women are responsible for the spread of "trench mouth," Dr. Isador Hirschfeld, of New York, declared today at the seventh annual convention of the American Dental Association.

Raymond Poincaré, premier of France, was host at a party held on the 68th anniversary of his birth. The party consisted of a simple family luncheon at his modest country home, at Champigny, a few close friends having been invited.

Parisian police are working out an elaborate system of identifying criminals by their ears. While the fingerprint system is admittedly good, it is said, there is some uncertainty about it. With ears, however, no two sets of which are alike, police hope to construct a better system of criminal tracing.

## Want Royal Commission

Should Study From Every Angle Problems Of Immigration and Assimilation

Speaking of the resolution passed recently at the Saskatoon conference of provincial groups interested in immigration, that a royal commission should be appointed by the government of Canada to "study from every angle problems of immigration and assimilation," J. A. Stoneman, president of the United Farmers of Canada, Saskatchewan section, said that a royal commission, efficiently constituted, would command the confidence of the public. "It can perform a great deal of work which members of the House of Commons have neither the time nor the facilities to do," he declared. The suggestion of a commission had been already approved by the U.F.C. Saskatchewan section and organized labor, as well as by the Canadian Legion at its last national convention, he pointed out.

## Young Farmer Wins Prizes

Success Attends Efforts Of Graduate Of School Of Agriculture

A 19-year-old farmer, I. C. Shank, of Athabasca, 85 miles north of Edmonton, won a first prize for wheat grown in 1927, and a first for 1928 out at the Edmonton Exhibition held recently.

This young man, after one year's course at the Alberta Government School of Agriculture, at Olds, took up the growing of registered seed grain on a farm of his own at Athabasca, and in open competition with other exhibitors in the province of Alberta, achieved the success noted.

## No Thought Of Retiring

"The newspapers retire me occasionally, but I won't give sufficient notice before leaving office," said Hon. Howard Ferguson, premier of Ontario, when asked in an interview as to rumors that he might retire from the Conservative leadership. Mr. Ferguson has returned from a tour of Europe.

## THE PADRE

Ralph Connor, the popular Canadian author, otherwise known as the Rev. Dr. Charles W. Gordon, who will conduct the special service at Sun Dance Canyon at the forthcoming Highland Gathering and Scottish Musical Festival at Banff, Alberta.

## Winnipeg Newspaper Union

The occasion was also noteworthy for the presence of so many of Scotland's leaders of scientific agriculture, including Sir Robert Greig, Mr. Archibald MacNellie, editor of the Scottish Farmer and Secretary of the Clydebank Society, both of whom spoke to us, and for the excellent chairmanship of Mr. W. A. Wilson, Agricultural Products, who represented for Canada, who set the proceedings to a happy note which was not the least enjoyable feature of a memorable evening.

Hitherto our engagements had prevented us from viewing Edinburgh itself, but the morning of our last day in "The Athens of the North" gave us our opportunity.

From the Castle we were able to see the beauty of her setting, the majesty of her seven hills, the handsome buildings, the spacious grandeur of Princes Street, the noble monuments, the winds and clove of the Old Town and beyond the city, the loveliness of the countryside. As the Tower of London is to England, so is Edinburgh Castle to Scotland. Here again the past enveloped us. Once more we were in touch with its struggles, its victories, its defeats, its heroisms, its cruelties and sacrifices. The expanse by which we had approached the Castle was for centuries the scene of executions by axe and stake. Here scores of "witches" were strangled and burned. How strange to learn then that this very expanse is held to be part of Canada in the reign of Charles I., the expanse was declared an integral part of Nova Scotia (New Scotland), so that baronets created under the commission of "William Alexander, Earl of Stirling, might 'take sale' of their new possessions, a decree which has never been annulled.

The Castle is entered by the drawbridge over the old moat. The pathway is cut through the solid rock, and the walls of the portcullis gate are 15 feet thick. Accompanied by a guide who evidently loved every inch of Castle and rock, we saw the Argill Battery on the edge of the cliff, St. Margaret's Chapel, the Palace Yard, the Crown Room, the old Parliament Hall and the National Monument.

St. Margaret's Chapel is the smallest Norman Chapel in Britain, being only 37 feet by 11. Today the children of soldiers of the garrison are baptized in it. In the Palace Yard, at the time of our visit, were strangled and burned. How strange to learn then that this very expanse is held to be part of Canada in the reign of Charles I., the expanse was declared an integral part of Nova Scotia (New Scotland), so that baronets created under the commission of "William Alexander, Earl of Stirling, might 'take sale' of their new possessions, a decree which has never been annulled.

We suggest enclosing 10 cents additional for a copy of our Fashion Magazine.

## Farmers' Marketing Tour

Canadian National Railway Tour To Great Britain and Denmark, 1928

(Continued.)

The return to Edinburgh was made under pleasant conditions, sunshine replacing mist and snow. That evening dinner was followed by one of the most interesting and certainly most discussed addresses of the tour. This was the talk by Dr. F. A. E. Crew, Director of the Animal Breeding Research Department, Edinburgh University, who spoke on "Animal Breeding—Some Scientific Aspects." Dr. Crew's address was remarkable, not only for the skill with which he traced the discovery of scientific laws and set forth the limitations of selection, but for the point of view taken. The modern breeder, he contended, had their beginnings in the vision of an artist, the breeder, and the more or less accidental appearance of one or more superior individual animals, and again and again Dr. Crew stressed the aspect of the ideal without which there could be no truly great advance.

Nor was the evening remarkable only for the inspiring address of Dr. Crew, for during the dinner we were introduced to "haggis," which was served in with all honors by Mr. Sharpe of our own party, and afterwards were entertained by the Earl of Elgin, who himself, sang for us in a rich baritone "My Hair is in the Highlands," his favorite song, first telling us that it was sung in his honor at the Canada Club, in Toronto, when he visited there. He also told us how, after spending a week in hospital at Winnipeg, he was convalescing at the home of a friend in this city, listening to the radio, when to his surprise he heard the announcer at C.N.R.W. (the Canadian National Railway) Broadcasting Station wishing him a speedy recovery. The Earl, a grandson of the 8th Earl, who long ago was stoned in Montreal, gave us the most delightful example of comradely informality that we had experienced in the tour.

The occasion was also noteworthy for the presence of so many of Scotland's leaders of scientific agriculture, including Sir Robert Greig, Mr. Archibald MacNellie, editor of the Scottish Farmer and Secretary of the Clydebank Society, both of whom spoke to us, and for the excellent chairmanship of Mr. W. A. Wilson, Agricultural Products, who represented for Canada, who set the proceedings to a happy note which was not the least enjoyable feature of a memorable evening.

Hitherto our engagements had prevented us from viewing Edinburgh itself, but the morning of our last day in "The Athens of the North" gave us our opportunity. ## TO WED RETIRING CHAMPION

PAUL IN THESSALONICA

SEPTEMBER 2

Golden Text: "The opening of Thy words giveth light."—Psalm 119:150.

Lesson: Acts 17:1-15; Romans 15:18-20; 1 Thessalonians 5:12-23.

Devotional Reading: Psalm 119: 9-16.

Explanations and Comments

Three Sabbaths in the Synagogue at Thessalonica, verses 1-4.—Although at Philippi we had suffered greatly, and had been hindered, yet on we came to your city and boldly declared to you the gospel of God in spite of great opposition.—In some such words Paul wrote to the Thessalonians (1 Thess. 2:2). From Philippi Paul and his companions passed through the cities of Amphipolis and Apollonia on the way to Thessalonica. Here they tarried several months, as we know from Paul's letters to the church he founded in that city. "You remember, brethren," Paul also wrote, "how we worked day and night to support ourselves, while we preached unto you the gospel of God for we would not be a burden to any of you" (1 Thess. 2:9).

Our historian, however, records only Paul's preaching for three successive Sabbaths in the synagogue. "Remembering them from the Scriptures," Luke says; that is, he cited Scripture passages which were prophetic of the gospel of God. Then he showed that Jesus fulfilled these promises, that it behooved the Christ to suffer and to rise again from the dead, and thus he reasoned, or argued, that the Jesus whom he proclaimed to them is the Christ.

John Knox: "You teach one thing, the Church of Rome teaches another; which shall I believe?" Knox's answer is memorable: "Ye shall believe neither, madam; ye shall believe God, who saith He will save us as we agree thereto, ye shall believe neither of us." Every conviction should be tested by the spirit and teaching of Christ.

The result of Paul's preaching was that many of the devout Greeks (Greeks who attended the synagogue and worshipped God), and many of the chief women of the city, were converted to the truth of his message and "consorted with Paul and Silas," cast their lot with them.

They were afterwards zealous in extending the good news that Paul brought them, and later Paul says, "From you hath sounded forth the word of the Lord, not only in Macedonia and Achaia, but also in every place your faith to Godward is gone forth."

## SUNDAY SCHOOL LESSON

PAUL IN THESSALONICA

SEPTEMBER 2

Golden Text: "The opening of Thy words giveth light."—Psalm 119:150.

Lesson: Acts 17:1-15; Romans 15:18-20; 1 Thessalonians 5:12-23.

Devotional Reading: Psalm 119: 9-16.

Explanations and Comments

Three Sabbaths in the Synagogue at Thessalonica, verses 1-4.—Although at Philippi we had suffered greatly, and had been hindered, yet on we came to your city and boldly declared to you the gospel of God in spite of great opposition.—In some such words Paul wrote to the Thessalonians (1 Thess. 2:2). The result of Paul's preaching was that many of the devout Greeks (Greeks who attended the synagogue and worshipped God), and many of the chief women of the city, were converted to the truth of his message and "consorted with Paul and Silas," cast their lot with them.

They were afterwards zealous in extending the good news that Paul brought them, and later Paul says, "From you hath sounded forth the word of the Lord, not only in Macedonia and Achaia, but also in every place your faith to Godward is gone forth."

## Recipes For This Week

(By Betty Barclay)

## NECTAR ICE CREAM

1 pint milk.

1 egg yolk.

1/4 cup sugar for custard.

1 pint whipping cream.

1/2 cup sugar, caramelized.

1 teaspoon vanilla.

1 cup nectars, raisins, plumped and cooled.

Caramelized sugar, add 1 cup scalded milk and stir until dissolved. Add remaining sugar to egg yolk and combine with milk to make a custard.

Cook until the custard coats the spoon. Remove from fire and add cold milk, cream, vanilla and salt. Freeze to a mush consistency, then add raisins and continue freezing until hard.

## FLOATING ISLAND

3 egg whites.

4 tablespoons sugar.

3 egg yolks.

1/2 cup sugar.

1/4 teaspoon salt.

1 1/2 cups scalded milk.

1/2 teaspoon vanilla.

Beat the whites until stiff. Add 4 tablespoons sugar. Drop by tablespoons into a shallow pan of hot water. Bake in a moderate oven until delicately brown. Remove cooked whites into a serving dish.

Prepare custard sauce: Mix yolks, sugar and salt in a bowl, add scalded milk slowly. Return to double boiler and cook until a coating is formed on metal spoon. Remove immediately. Add flavoring. Pour around cooked whites in a large shallow bowl. Chill before serving.

## Dairying An Important Industry

Dairying is one of the oldest and one of the most important of the industries of Canada. It owes its modern development to the introduction of the factory system for the making of cheese and butter, to the invention of the centrifugal cream separator, and to the facilities afforded by improved methods of cold storage.

## Chinese Pheasants Released

Saskatchewan hunters have added to their respective hunters' parades a novel feature with the introduction of the Chinese ring neck pheasant, a bird that's very similar to the Hungarian partridge. Thirty of these birds have been introduced into Saskatchewan, and were released half-way between Lovers and Al. Sask. in the western area.

## The Talking Movies

Moving Picture Industry Said To Be Upset Over New Innovation

Talking movies have thrown the celluloid industry into profound agitation. Conceding that most of the audible films thus far made have been perfectly terrible, the movie magnates nevertheless fear that in future the silent variety, no matter how well made, will seem insipid by contrast. Everyone is frightened. The stars, most of whom are without stage experience and have never uttered a syllable in public, do not know whether they are fitted for the new tasks. Authors, scenario men and title writers see a completely new and far more difficult technique thrust upon them. Producers are worried because they must scrap equipment, even more expensive. Theatre owners are grumbling at the prospect of being required to put in costly wiring and pay heavy license fees. Exporters are wondering how a film with English dialogue can be sold in foreign countries which speak other languages, and if Spanish text, for example, is added after the picture has been made—which is technically feasible—how will the audience receive it when the actors' lips clearly do not speak the syllables which are heard? Another difficulty will come if new stars are brought forward in place of the present ones, some of whom have built up large followings abroad. Perhaps more alarmed than anyone else are the musicians; thousands of whom now earn their living playing in the film palaces, and see their livelihood endangered. The American Federation of Musicians has raised a large fund with which it hopes to fight the menace—New Republic.

## Giant Dirigible Flight Delayed

British Machine Will Not Be Ready For Flight To Canada This Year

The giant dirigible H-100, which Great Britain is building in competition with the German LZ-127, will not fly to Canada and the United States this year, Commander C. D. Burney told the Associated Press.

Failure of contractors to deliver parts on scheduled time and the necessity for extended trial flights have caused postponement until next year.

Commander Burney said that the winter would be no deterrent to the flight and if the H-100 is ready by the early months of 1929 she will make the flight by the southern route.

Trial flights will take at least two months and there is no chance of their beginning before December.

## Work For Miners

Premier Baldwin Makes Appeal To Employers In Great Britain

Premier Baldwin has decided to appeal personally to 150,000 employers of Great Britain to provide work for jobless miners.

The ministry of labor announced recently that at the premier's behest it was asking each employer to take at least one or two miners or mine boys into some sort of a job.

The appeal takes the form of a personal letter from Mr. Baldwin.

The announcement said that the ministry would defray the travelling expenses of the men so transferred from the depressed area.

## Where People Are Good

The nearest thing yet discovered to approach "heaven on earth" is the little island of Elg, in the Inner Hebrides. There is no record of a police case within living memory or the natives, according to the report brought back by scientists and historians who have visited there.

Farmer (to friend): "I hear, Bert, that while we were in the city ye took up this here golf. How'd ye like it?"

Bert: "Well, it ain't bad. It's a bit harder than hoe'n' turnips ar' a bit easier than diggin' potatoes."

Knowledge may be power, but it is seldom powerful enough to move a stubborn man.

"When father is sick, mother helps. When the children are sick, it is also mother who helps. But who helps when mother is sick?"

"Grandmother!"—Vikings, Oslo.

"You must always knock at the door before you come in."

"But I thought you were married?"

Ernstliche Sache, Leipzig.

—BY—  
**NELLIE L. McCLUNE**  
Copyright, Canada, 1925

### CHAPTER XXXI.—Continued.

Jack was lying on the couch while Eva sat beside him, the light so shaded that he could not see her face. She sat motionless through it all. He told of his return from the north and finding her gone; of his suspicions, confirmed, as he thought, by seeing her in Edmonton; of his sudden resolve to enlist; and lastly of his meeting with Arthur Warner. "I don't know," he concluded, "what is the explanation of the Winnipeg affair, but I know Helmi is innocent. She was sent to that place by someone and is shielding that person. Look at her letters, Eva—read them—and to think I doubted her, and left her alone when she needed me!"

Eva took the letters in her cold hands, but she could not read a word. "I got the news of my baby from another man," said Jack brokenly, "and it was his money Helmi got instead of mine to help her. Helmi had to beg for work and suffer insult. See what she says there—'No one wanted a girl with a baby.' Wasn't it damnable, Eva? I rage when I think of it. I blame myself—I shouldn't have believed anything. I know how sweet and good and true she was—I knew! But the person that sent her for the money and then said it was the person who should be shot, and I left it to the bottom when I go back!"

Poor Helmi, hearing it all because she was too honorable to tell!

In his excitement and deep emotion Jack did not notice that his sister had not spoken, but sat with bowed head, like a broken lily.

It was one of the soft nights when the blossoms are just beginning to scent the breeze, when there are those indescribable stirrings and whisperings of spring. Even if nations are at war and planning the destruction of each other, trees leaf and blossoms open. The streets seemed quiet to Jack; but for the heavy rumbling of the buses no one appeared to be abroad.

Suddenly the silence was broken by a weird, spitting noise as of giant fire-crackers; a sound of deadly im-

port to the people of England, for it gave warning of the approach of enemy aircraft.

"The air raid," Eva answered, without stirring. "They run to the tube stations; but I never go—I feel safer here—I have a dread of being somewhere in those terrible places. I've been through three air raids already. So I am not afraid."

Eva spoke, with a composure which was not assumed; anything was better than the maddening remorse that had swept over her as Jack told his story.

Jack went to the window and looked down into the street. Through the open window came the drone of the enemy's Zeppelins, malevolent, horrible, like the buzzing of some poisonous fly. Then came the continuous cannonading of the anti-aircraft guns, like wild days of battle. The searchlights combed the sky with their ghostly fingers, and people came tearing out of their houses and raced through the dark streets.

Jack had often wondered how people would act during an air raid. He felt no fear for himself—it didn't occur to him that he could be in danger here in London—his fear was for Eva. "Haven't we better go, Eva?" he asked anxiously. "It seems to be almost above us." Is the tube far away?

"Not far—but I never go. Come away from the window. There—that's a bomb—not far away—we're in for it, Jack, they're coming nearer." Come here, Jack, I feel dizzy—come to me—I want to tell you something. I knew your Helmi in Winnipeg. She is not to blame—I sent her, Jack. Forgive me—I sent her to the Chinamen's! Ask her to forgive me, too. I have been sorry ever since.

A bomb burst in the square. There was a shattering of glass and a crashing of masonry; a horrible confusion of noises, tearings, screaming, concussions, clanging fire-engines.

By a strange chance the house in which Eva had her suite stood, though many houses in that vicinity fell. All the windows were shattered, and on the window sill of the room in which they stood was thrown the body of a little dead dog.

On the floor, where she had fallen, Eva lay, a piece of shrapnel in her chest.

Jack stayed in London until Eva was out of danger. She would recover.

NAME  
ADDRESS

is now ready for  
distribution

OWING to the tremendous activity and interest manifest in the Manitoba and Patricia, Ontario, mining districts, we have prepared a comprehensive map covering these areas. It also shows the new Favorite Lake gold area.

The location of the prominent properties now under development are indicated.

This map, 32 by 22, is divided into five sections and a key map, showing the comparative locations of these areas with proximity to railroads and power lines.

A request on the coupon below will assure copy reaching you without obligation.

er, the white-uniformed doctor, at Guy's told him, but of course she would be badly scared.

Behind her bandages, Eva smiled feebly. "It's all right, Jack," she said wistfully, holding his hand; "better women than I have been better pieces. Maybe God is giving me a few more years to atone for what I have done. I have been a poor sport, Jack—I needed a smash of some kind—I am not complaining. Life is queer, Jack, isn't it? I wanted to show Humphrey I wasn't as selfish and shallow as he thought. He told me in the last quarrel we had, and the only one, that I would never be an old woman—I would only be a staid novelty. I was determined to show him I had some thought of doing things for other people, so I came here and got into the V.A.D. work. What I really wanted to do was to drive an ambulance in France, but I was afraid, not of death, but of disfigurement. I hate ugliness so—far more than sin."

"It was my hatred of ugliness, not of sin," Eva continued, "which cured me of the drug habit. I had learned to take dope just because it gave me a thrill—it saved me from dullness; but I saw an addict—one of the doctor's patients—a woman something like me, but horrible to look at—pasty-faced, dead-eyed, moulid aspe and I could see I might some day be like that. So, Jack, I never touched it again!"

Eva paused for a long time. "But now, with a blue scar on my cheek and my nose broken I will not be afraid I will go to France. Maybe I can take the place of some better and happier woman, and when the shell comes marked for her, it will take me instead. And Jack," she continued, "you will tell Helmi all of this and ask her to think kindly of me as she can. She loved me once with all a young girl's adoration."

Jack kissed his sister tenderly with a deep sorrow in his heart. He could not reproach her for a sin and no need but his own heart was aching with the sorrow of it all. Sin and sorrow—the age-old partnership—sin and sorrow. By one man sin came into the world and death by sin; but the one who sinned is not always the one who suffers.

Jack had cabled Keith, his former partner, from Paris, to send to London one thousand dollars. But when he reached London he found that no reply had come. Those Keith of Winnipeg, could not be found. He had left the city over a year ago, and his creditors had not been able to trace him.

Jack sat on one of the wooden benches in the cable office, and thought, in a quietly detached way, of what this meant to him. He wondered at his own calmness in the face of such a smashing blow, for the gold mine on the Nehanni, with all the comfort and luxury it would bring him, had been, much in his thoughts during the cheerless months of imprisonment. He had planned many generous surprises for his companions, too.

And now it was all over. He had been following a false light. He had been warming his hands at a painted fire.

Well, there was about two hundred dollars coming to him from the War Office, and he would be given transportation home. Prisoners who had escaped through a neutral country were not allowed to go back into the army.

When the Olympic sailed out of the harbor at Liverpool into the muddy waters of the Mersey, Jack stood on the deck looking back at the receding shores of England. Behind him lay bitter thoughts and much disillusionment; the futility of war; the hideous wastage of young life; the horrible suffering and slaughter; and Eva, his only relative. He choked with bitter memories as he thought of it all. Then there came to him, beating up through all this, like a fountain of sweet water, in the sea the memory of Arthur Warner and his unselfish love, and of Helmi, with her clear, sweet soul and her honorable silence.

Jack walked to the prow of the vessel and looked away from the 1752 distance. Behind him lay the sorrow for the past, with its mistakes and regrets. Before him lay Canada—his own country—Helmi, and little Lili.

(To Be Continued.)

The term "furlong" is a shortened form of "furrow-long." The average length of a furrow cut by a plow across a field was about 200 yards. From a rough indication at distance it gradually became fixed at 220 yards.

Blasted out of solid rock, a new "strong room" covering an area of two and a half acres has been constructed 150 feet below the Bank of France. The task occupied 1,250 men for three years, working night and day.

Minard's Liniment cleanses cuts, etc.

## WRIGLEY'S P.K. CHEWING SWEET

Here is a treat that can't be beat! Benefic and pleasure in generous measure!

### A Friendly Gesture

Germany's Friendship For England  
Revealed In New Book

Germany's rediscovered friendship for England is reflected in a small volume, just published, "London: Love of a City," by Wolf Zuckerk, a young German publicist. The new book compares favorably with many a bulky tome, in which German travellers endeavor to enlighten their countrymen on matters beyond the channel.

This latest contribution to German post-war literature on England shows the extent to which the "hymn-of-hate" psychology has been surmounted; for Zuckerk's volume is not merely a chronicle of objective impressions of London and Englishmen; it is the dithyrambic prose of an impassioned lover of London and England.

Unlike many of his European contemporaries, Zuckerk records his impressions of England and London without any attempt to analyze them by Continental standards. Few foreigners have ever presented a more enthusiastic account of the English capital.

### Tributes To Canada

Party of British Chemists Are Favorably Impressed With Conditions Here

Tributes to Canada marked a dinner at Montreal tendered to the party of British chemists en route to the United States where the annual convention of the British Institute of Chemical Engineers will be held this year. Nearly 200 were present.

Sir Alexander Gibb, president of the British Institution of Chemical Engineers, declared that "our visits since arrival on Saturday at Quebec have impressed upon us perhaps more greatly than we knew the extraordinary way in which Canada is going forward. It makes one realize that Canada is cutting out a course for herself, an independent course, and a course that brooks well for the future not only of Canada but of the British Empire."

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word 'Genuine' printed in red? It isn't the genuine Aspirin without it! A drug-store always has Bayer, with the proven directions tucked in every box:

Aspirin is the trade name (registered in Canada) for Acetylsalicylic Acid. While it is true that Aspirin means Bayer's Aspirin, it is also true that Aspirin means Aspirin. Bayer's Aspirin is the only Aspirin that is pure.

### Remarkable Migration Of Game

Interesting Sight Is Witnessed By Geographic Society Expedition In Africa

A remarkable migration of game in the Tanganyika territory is reported by Carveth Wells, of the Geographic Society expedition, the reports being made from the party's first headquarters in the Tanganyika territory, East Africa, where they arrived on July 23.

Martin Johnson, noted animal photographer, who is in the same district with Wells, estimated that there are about 10,000,000 head of game migrating across the country in a solid mass ten miles wide and 30 miles long at one spot.

Zebras were stated to be leading the way in a mass ten miles wide and five miles deep, followed by miles of gnus and other animals.

The explorer's camp at the time reported was situated in longitude 35 east and about two degrees south of the Equator. Wells reported that notwithstanding the extraordinary location the air was so cold he had to sleep in a sleeping bag and wear a thick overcoat and sweater, while he would have been very glad of a hot-water bottle at night.

There has been several exciting expeditions with animals en route, particularly with one group of eight lions which investigated the car in which Wells was riding, coming to within fifteen yards of it and finally slinking away.

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so suddenly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or on mail for 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Macmillan Company of Canada

### THE CANNINES

You have referred to your dog Rover as a "canine." But what is it? This tooth, then, that is the first in line behind the incisors, is called the canine. From being extra well-developed as in the dog and other carnivorous animals.

It is the most primitive type of tooth, and is known also as the cuspid, and as the "eye tooth," this last being only a popular designation. Being observant, you have likely noticed that of the temporary teeth, this one was the last to be lost, serving thus, to keep the upper and ridges in right relationship for their permanent successors during the process of shedding the temporary teeth. But it may be that it remained in place too long, for not infrequently in the upper jaw, the permanent cuspid, though developing, does not erupt, in which case the temporary cuspid should be retained as long as it remains firm and sound, depending solely on the advice and responsibility of your dentist.

Now notice this point: Overlying the root of the upper canine, elevation, the "canine eminence," which serves to keep the tissue at the angle of the mouth well held out. Then should you lose this tooth, this eminence disappears, with the resultant falling in of this tissue, giving you prematurely the appearance of age.

So, if you would keep your youthful appearance, beware. See to it that your "eye-tooth" stays, sound, and free from the clutch of your dentist's forceps.

### Little Helps For This Week

"Give, and it shall be given unto you; good measure, pressed down, and shaken together, and running over, shall men give into your bosom."—Luke vi, 38.

Dig channels for the stress of love. Where they may broadly run; And love has overflowing streams To fill them every one.

For we must share if we would keep That good thing from above; Ceasing to give we cease to have, Such is the law of love.

—Richard Chenevix Trench

It is only the most pitiable of heart poverty that feels as if it could do nothing to add to the happiness of other lives, and does not even make the attempt. And where no love is given, the life shrivels and narrows until none can be received. The soul itself is refreshed and enlarged by the stream of life that flows through it; this is the true, well of water springing up within us everlasting life.—Lucy Larcom.

No high-grade tea can be expected to retain its full flavor and strength unless packed in moisture-proof, metal-lin containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavorful.

Use it for all CLEANING and WASHING. Gillex Softens Water. For more information, write to Gillex Softens Water, 213 Bank St., Ottawa.

## Dressmaking School

A practical training in designing and making costumes and millinery; individual instruction. The Winnipeg Dressmaking and Millinery School, 213 Bank St., Winnipeg, Tel. 1500.

### Sleep and Repose

Doctor Says Sleep Becomes a Vicious Habit When Carried To Excess

Sleep becomes a vicious habit when carried to excess, said Dr. H. M. Johnson, "sleep expert" at the University of Pittsburgh. Most people, Johnson believes, get sufficient rest in the course of six and a half to nine hours to carry them through the day and make their work enjoyable.

Sleep is vicious, he said, when it interferes with more interesting activities. Dr. Johnson studied 90 persons of both sexes ranging in age from 13 to 63 years in an attempt to discover the secrets of sleep. Women are less restless than men as a rule, he finds, and spend more time in bed. Persons engaged in mental activity during the day, sleep less than persons engaged in work that only feebly stimulates.

Muscular Rheumatism Subdued. — When one is a sufferer from muscular rheumatism, he should do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be truly estimated.

Both parties should remember that they are married for worse as well as better.

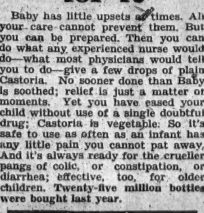

Minard's Liniment For Every Pain.

When a man offers you something for nothing, don't accept it unless you can afford to pay at least double its value.

## Are You Ready

Baby has little upsets at times. Ah you cannot prevent it unless you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed, relieved, just a matter of moments. Yet you have eased your child without use of a single doubtful drug. Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot put away. And it's always ready for the crumblings of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

#### THAT OKOTOKS CROSSING

Six fatalities at this crossing in as many weeks. Calgary papers, of Friday last, tell the tragic tale of an entire family crushed and mangled to its death when an automobile driven by A. J. Clark, of Sunburst, Mont., who was motoring with his wife and three children to Banff, was struck by a southbound C. P. train.

We shudder as we visualize those mangled bodies, the tender hearted may even shed a tear for those lives so mercilessly and suddenly snuffed out, while the man on the street mumbles something about dam fool drivers. But what do we do about it?

Millions of feet of lumber, thousands of gallons of paint, hundreds of tons of newsprint and tons of ink are in daily use in the form of signs and warnings at, and concerning, railway crossings as to the risk taken by those who cross without "looking and listening." All to no avail. The locomotive can't stop and the public won't.

An inquest was held Saturday night in Calgary, resulting in exoneration of the train crew and railway company, but recommending that a permanent "slow order" be put into effect for all trains at this crossing—not a very effective safety measure, in our opinion.

It would seem that automatic bar-

riers are the only remedy to save man from his own destruction and the sooner our legally appointed appointed guardians take this matter in hand and see that such barriers are placed at all important crossings where traffic centers the sooner will motorists be deprived of this particular method of committing suicide and murdering their friends.—Hanna Herald.

#### SPECIAL MEETING OF SCHOOL BOARD

A special meeting of the Blairmore Board of School Trustees was held on Monday night for the purpose of further considering the Grade XII question. The chairman reported the result of the Board's mission to Bellevue, where they were entertained kindly by the Bellevue board. A very favorable proposition had been advanced by the Bellevue board, but upon later consideration it was found to be practically impracticable, owing to the high cost of transportation.

The board on Monday night decided to take the matter up with Coleman, as it was felt the morning train service might be better suited.

In the event of the Board's inability to come to terms with the Coleman board, it may be necessary that pupils qualified to take Grade XII would be obliged to go to either Calgary or Edmonton.

Miss Frances A. Soar, A.L.C.M., has arrived from the Old Country and is staying with her uncle and aunt, Mr. and Mrs. G. W. Goodwin, at Bellevue. Miss Soar will take classes in piano and theory. See ad elsewhere in this issue.

Constable W. D. B. Munton, of the local detachment of the A.P.P., left by last night's train for Edmonton, to which point he is being transferred with promotion. The many local friends of Mr. Munton regret to see him leave the district.

#### TO DEVELOP CLAIMS ADMONISH YANKEE GIRL

J. L. Parker, M.E., of Lee Lake, has become interested in mining in British Columbia, and the following article, copied from the August 24th issue of the Western Canada Mining News, will be read with interest:

"One of the latest mining activities in the Kootenay is the development of the Morning Star and Evening Star claims, both crown-granted, near Ymir. It will be watched with interest, since the vein is the extension of the adjoining Yankee Girl, which is coming to be looked upon as the most promising gold mine in the south-eastern interior of the province. Behind the proposition are A. Erskine Smith and associates, of Vancouver, including J. L. Parker, mining engineer, who lately returned to the city after an absence of several years."

"On his way to the coast, Mr. Parker examined about twenty properties in the Slocan and Kootenay areas before he got to the satisfaction. Thirty years ago, he did development work on the Morning Star and Evening Star, and almost for that length of time, the shafts have been filled with water. He knew there was good ore on the claims, and as soon as he ascertained that they had not been included in the Enterprise Consolidated group, he immediately optioned them for the syndicate."

"The old shaft is ninety-five feet deep on a strong vein carrying sulphides of lead and iron, the shaft being bottomed in mineralized quartz. Shipping ore was discovered toward either wall, but in neither case was the wall reached. The width of the vein is approximately twenty-seven feet. Toward the hanging wall was two feet of sulphide or iron which assayed \$30 gold, while in toward the footwall was galena assaying \$30 gold, silver and lead."

"Work will be started before October 1st, a tunnel to be driven to cut the vein. This tunnel will facilitate handling of ore, as well as drain the workings. Location of the tunnel is yet to be decided upon. The proposition is regarded as extremely favorable for development with excellent prospects of good results."

At Yankee Girl, development has proceeded to a depth of 1250 feet from the apex of the vein, and the ore bodies, with their uniform values, have been demonstrated by diamond drilling to a further depth of 250 feet. Values average \$14 per ton.

On Thursday afternoon Mrs. John Spence was the guest of honor at a farewell party at the home of Mrs. A. E. Ferguson by the officers and members of Vimy Chapter, O.E.S. During the afternoon several tables of whist were played, Mrs. Davis winning first prize. A dainty tea was then served and an enjoyable time spent over the tea cups. Mrs. Davis, Worthy Matron of Vimy Chapter, then presented Mrs. Spence with a silver pie casserole, expressing the good wishes of the Chapter for her success and prosperity in their new home in Lethbridge. In accepting the gift Mrs. Spence thanked the members for their kindness shown, but expressed her feelings of regret at leaving Blairmore; she has resided here for a number of years, having been employed in the Union Bank at Blairmore previous to her marriage. Mrs. Spence and Baby Frances left on Saturday morning for Lethbridge, where they joined Mr. Spence, who has recently accepted a position on the city police staff of that city.—Ex.

A tourist motoring through Fernie the other day suffered a flat tire through a tack. Going to a garage, he was offered ten cents for the tack on condition that he would have the tire repaired there or else buy a new one.

A natural scientist says that the early Briton played a game something like golf. "Well, that kind of golf is still played," comments London Opinion.

Ronald Callaron, a tourist, was arrested here last week and taken back to Fernie, where he paid a fine of \$20 for stealing a blanket from the Waldorf hotel.

Mrs. F. V. Houghton and daughter Eileen left last week end for Medicine Hat to join Mr. Houghton, who has recently entered upon a position with the Canadian Farm Implement Co.

The teacher had been giving the class a lecture in English composition, and when finished, asked a bright boy of the class to write a very long sentence. The boy wrote: "Imprisonment for life."

When Joseph Howe was pleading his own case (a libel action brought against him many years ago), he said that some people seemed to think that the freedom of the press meant to read a paper several years and then refuse to pay for it.

The girls of the Junior Catholic Women's League gave a shower on Monday night of last week at the home of Mr. and Mrs. T. Pondellick, in honor of their eldest daughter, Miss Vlasta Pondellick, whose marriage took place Monday of this week.

I. L. and Mrs. Morgan, of Blairmore, accompanied by Richard and Mrs. Morgan, of Pincher Creek, recently returned from an extended motor trip through the States, during which they visited a number of the leading cities and industrial and manufacturing centers.

Mr. D. A. Howe has returned from Calgary, to which point he with Mrs. Howe accompanied their daughter Tina, suffering from an eye affection. Mrs. Howe and children are remaining in Calgary for a few days, where Tina is doing well under treatment. Mr. Howe will return to Calgary and accompany the family home the early part of next week.

We have received a letter from Bro. Burnett, P.G.M., P.G.P. dated at Paris, where he was spending a short time with his son, after a 2500 mile motor trip through France, Switzerland, Germany, Austria, Holland and Belgium. Bro. Burnett expected to fly to London about August first, spend the month in England, Scotland and Ireland, sailing for home about the first of September.—Alberta Odd-fellow.

Bill Watson, the armless boy of Macleod, who has just passed his examinations in law, will be articled to one of the principal law firms in Edmonton for one year and will then be admitted to the bar. This boy has gone through the schools of Macleod and then through the Alberta University, passing with honors in his class. He has had many difficulties to overcome, but his determination to succeed has carried him through.

There is no "dole system" in Canada but, on occasions, the larger cities have adopted the less dignified method of caring for paupers via the bread line, soup kitchen, etc., and the winter of 1928-29 is going to see more of it than ever, especially in the west. With 10,000 ex-coal miners transplanted in the three prairie provinces, 6000 miles from home, besides the numerous other thousands who drift in from eastern Canada and the States for our annual harvest, western cities are due to experience some anxious hours. There'll be just one solution—government transportation right back home.—Hanna Herald.

Containing a full summary of the open seasons for game in the various provinces of Canada for 1935, the September issue of Rod and Gun and Canadian Silver Fox News heralds the fast approaching hunting season. Some fine stories of deer and goose shooting give a pleasant foretaste of the annual pleasure of the fall trip. In addition to these there are also two splendid stories of camera hunting by the well known writers, Bonnydale Dale and Dr. S. S. Dickey. Robert James contributes another splendid "Tale From the Wardroom Menu," while the magazine contains many other interesting stories and feature articles.

AN  
**INSTANT RESPONSE TO YOUR DRIVING MOOD**  
  
**Learn for Yourself**  
**ALIVE** with the instincts of a living thing, the new Oldsmobile responds to your every mood. The breath-taking thrill of a great surge of power—the keen ecstasy of speed—the soft, deep comfort of rich mohair upholstery, and the smooth calm of vibrationless movement—these are yours to enjoy as the mood takes you! And always, behind it all, the reassuring sense of perfect security in the four-wheel brakes—in the quick response to steering—in the lightning dash of swift acceleration. Never was there an automobile so sensitive to every whim of yours. Never an automobile so thrillingly—so instantly responsive to express in matchless motion your mood of a moment! See the long, low sweep of its Fisher-built body—the luxurious appointments of its silenced interior—the walnut-finish panels around doors and windows—the exquisitely etched instrument board—the dome lighting—the arm-chair comfort of the seats. Drive it. Let your moods vary like the wind and watch the Oldsmobile instantly respond to them. Press your foot on the pedal-like accelerator and know the sheer joy of accelerating from 5 to 25 miles in 8½ seconds in high gear! Watch it shoot ahead of the traffic or obediently fall in at a walking pace. The superb smoothness, power and flexibility of its 35 h.p. precision built, Six Cylinder, high compression engine are at your command—instantly responsive to your every mood!

Meets First and Third Tuesdays  
at 8 p.m., in the Oddfellows' Hall.  
Officers for the ensuing term: Wm.  
Oliver, N.G.; M. Joyce, V.G.; Wm.  
Patterson, Secretary.

Crowview Rebekah Lodge

No. 66, I.O.O.F.

Meets First and Third Thursdays  
at 8 p.m., in the Oddfellows' Hall.  
Officers for the ensuing term: Sis. J.  
H. Warner, N.G.; Sis. J. Patterson,  
V.G.; Sis. C. A. Fraser, Rec. Sec.

Livingstone Lodge No. 22,

KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the  
Second and Fourth Fridays of the  
month at 8 p.m. Visitors are always  
welcome. Officers: C.C. Joseph Wol-  
stenholme; K. of R. & S. B. Senaier.

BLAIRMORE LODGE NO. 15

B. P. O. ELKS

Meets Second and Fourth Tuesdays  
at 8 p.m., in the Elk Hall. Visitors  
made welcome. A. E. Ferguson, Ex-  
alted Ruler; J. R. McLeod, Secretary.

In connection with the new concrete  
sidewalk being built in Blairmore, the  
Canada Cement Co.'s specifications for  
mixture will be strictly adhered to,  
and Mr. McKenzie, of that company,  
will spend several days in town while  
the work is in progress to see that  
Blairmore is to have a real job done  
with Canada Cement Co.'s products.

**THE PASS FIFTEEN YEARS AGO**

(The Blairmore Enterprise, 1913)  
July 4.—Through the efforts of the  
local district Automobile Association,  
the road through the Frank Slide is  
receiving some attention.

The children of the Baptist and  
Presbyterian Sunday schools held a  
joint picnic at Burnis on Tuesday.

Bobbie Thompson, son of Mr. and  
Mrs. F. M. Thompson, was kicked by  
a horse on Dominion Day. Mr. and  
Mrs. Thompson and children were  
driving with a horse and buggy near  
Burnis, when the reins became  
tangled, causing the horse to kick  
one of the hind hoofs coming over  
the dashboard and hitting the boy on  
the jaw. He was rushed to Dr.  
Bell's surgery at Passburg, and from  
there to the Frank hospital, where he  
is doing well and out of danger.

Robert Patton, son of J. B. Patton,  
engineer with the West Canadian Col-  
lieries at Blairmore, was among the  
victims of a drowning fatality in the  
Saskatchewan river near Edmonton  
on Thursday last.

John Johnston, said to be the  
tallest policeman in Canada, dropped  
dead on his beat in Regina on Sunday  
morning.

Stanley Rourke, of Brisco's, left  
Wednesday for his home in Ontario,  
on a brief holiday.

Mrs. T. Hills and two sons arrived  
back from England on Friday.

Clarence Lewis has sold his pool-  
room interests to Cliff Church, of  
Macleod.

Charlie Roy, Walter and Gus Howe,  
Dan Dunlop, W. McRae, J. Clark and  
Sam Patterson, who had been attend-  
ing the Calgary military camp, re-  
turned home on Sunday.

J. Edgar Johnson, of Hillcrest, was  
killed by a kick from a horse while  
visiting his old home in Williamsdale,  
Nova Scotia. His wife predeceased  
him, having died suddenly at Hillcrest  
in August, 1912.

The many friends of Rev. F. Stacey  
McCall, B.A., will be pleased to learn  
of his appointment as principal of Al-  
berta College, succeeding Dr. J. H.  
Riddell, who has been elected pres-  
dent.

July 11.—Fifteen hundred miners  
have gone on strike at Sydney Mines.  
The chief cause of the strike is that  
horses are not employed at the mines.

Bill Boseley, brother of Frank, ar-  
rived at Bellevue from England this  
week. It is twenty-five years since  
the brothers met.

The marriage of Annie Hutton to  
George Coupland took place at Bel-  
levue on Saturday last, Rev. W. H. Ir-  
win officiating. Mr. and Mrs. Coup-  
land have taken up residence at Bur-  
mis.

The West Canadian Collieries Lim-  
ited, have set several gangs of men  
to work at Greenhill, north of town,  
where several seams of coal are be-  
ing tapped. The quality of the coal  
so far exposed is said to be superior  
to anything yet mined in this district.

James R. Warner is opening up  
the Putnam building on Sixth Avenue  
south as a boarding house.

R. B. Bartlett and Clarence Lewis  
left Monday for northern British Co-  
lumbia, where they will seek their  
fortunes.

**TODERIN—BOUTRY**

The marriage of Miss Dorothy Bar-  
bara, daughter of Mr. and Mrs. A.  
Boutry, to Mr. Spirdoff Toderin, was  
solemnized at Bellevue United church  
on the afternoon of Sunday, August  
the 19th, by Rev. J. L. Wright.

Following the ceremony, a recep-  
tion was held at the home of the  
bride's parents, a large number of  
friends of the contracting parties be-  
ing present.

The young couple have taken up  
residence in Bellevue.

Coleman schools opened for the fall  
term on Monday last.

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, R.D., Pastor

Serve the church that the church  
may serve you.

The services on Sunday next will  
be in charge of the pastor, Rev. J.  
W. Smith. In the evening, the ser-  
vice will take the form of a harvest-  
labor service, and the pastor will  
speak on the subject: "Fruits of La-  
bor." Those desirous of assisting in  
the decoration of the church for the  
occasion, are asked to leave the flow-  
ers, plants, vegetables, etc., at the  
parsonage or the church not later  
than Saturday evening.

**LADIES' AID MEETING**

A meeting of the Ladies' Aid of  
the United Church will be held at  
the church on Wednesday next at  
2.45 p.m.

**ST. LUKE'S, BLAIRMORE**

Service will be held at St. Luke's,  
Blairmore, at 7 p.m. next Sunday,  
September 2nd.

I give notice that a meeting of the  
congregation of St. Luke's, Blairmore,  
is called for Sunday, September 9th,  
at the close of the morning service,  
for the purpose of electing a people's  
warden in place of D. G. Mackenzie,  
K.C., who has resigned on account of  
leaving the district, and to undertake  
any other competent business.

Dated this 28th day of August,  
1923.

—A. D. CURRIE.

**COWLEY HAPPENINGS**

The village school reopens on  
Tuesday next, September the 4th.

H. D. McMillan has returned from  
a holiday trip to Radium, B.C. He  
reports a swell time.

Mr. and Mrs. Lee Hetherington  
left on Thursday by motor for the  
coast, where they may consider mak-  
ing their future home.

George Ingraham, of the North  
Fork, left for Winnipeg on Monday  
night, to which point he has been  
called on account of the serious ill-  
ness of his brother.

During the past week, slight dam-  
age has been done to growing crops  
and gardens by a few degrees of  
frost, which occurred in Monday  
night. Heavy rains also fell over the  
district, which made an excessive  
amount of moisture and which will  
retard the ripening of the grain  
crops.

**RIGHT TO ASSESS  
AUTOS CHALLENGED**

Considerable interest is being  
evinced in the test case now being  
heard in Opal, Alberta, village school  
district, as to whether a resident  
within an incorporated school district  
is liable to have a school tax put on  
his automobile, and the result of the  
case is being watched throughout  
the province. At Rocky Mountain  
House, auto owners are being as-  
sessed as high as \$30 a car.

Under Section 24 of the School  
Assessment Act, village and consol-  
idated school districts may tax for  
school purposes all property, real and  
personal. Grain, hay, household ef-  
fects, wearing apparel, farm build-  
ings, livestock and farm implements  
are expressly exempt from the tax,  
however.

The test case at Opal is being  
fought on the grounds that the car  
is a farm implement.

Mr. O. Capron has returned from  
a visit to his sons in the Peace River  
country and reports the boys doing  
well, with prospects exceedingly  
bright for the future.

**FORMER BLAIRMORE  
MAN SUPERINTENDS  
C.P.R. TIMBER CAMP**

Invermere, B.C., Aug. 12.—It is re-  
ported that it is the intention of the  
Canadian Pacific Railway company to  
change the great bulk of its mill and  
logging operations from Bull River to  
the Windermere district. The ex-  
act site where the mill will be erected  
has not yet been disclosed by the of-  
ficers of the company, but in the  
event of a change taking place, it  
seems probable that the site near the  
mouth of Dutch Creek on the west-  
ern shore of Columbia Lake may be  
the one chosen.

The site immediately adjacent the  
Kootenay Central branch of the rail-  
way and is not far from the main  
highway from Windermere to Cran-  
brook. It is at the base of the new  
trunk road leading directly to Inver-  
mere. The company is reported to  
have acquired timber holdings on  
Dutch and Findlay creeks and up the  
Kootenay river.

Operations, which look to be lead-  
ing toward the commencement of  
work on the Findlay Creek limits, are  
being carried out at Canal Flats,  
where the company has erected a  
warehouse and with the steam shovel  
and gang has started the construc-  
tion of a logging railway up the val-  
ley of Findlay Creek. This work is  
being carried on under the superin-  
tendency of Mr. Harry Burns, for-  
merly of Blairmore. The engineer-  
ing features of the work have been  
carried through by DeWolfe & Ham,  
of Cranbrook.

Colonel W. C. Bryan, superintend-  
ent of the Alberta Provincial Police,  
was chosen vice-president for Alber-  
ta to the closing session of the North-  
west Association of Sheriffs and Po-  
lice at Boise, Idaho, on August the  
19th. The next convention will be  
held at Missoula, Montana.

## Where Co-operation Is Needed

The movement of ten thousand unemployed British miners to Canada to work as harvest hands in the grain fields of the West is so significant, and may have such far-reaching results, that it warrants additional consideration to that already given in a previous article in this column.

Suppose the situation was reversed and there was a surplus of tens of thousands of farmers' sons and farm hands in Western Canada who could not find employment, while, on the other hand, there was a shortage of miners in the coal-mining districts of the British Isles, and the experiment was tried of transporting an army of men from the grain fields of the West to the mines of Britain.

Under such circumstances the sympathy of the people of Canada would go out to their sons as they journeyed to an unfamiliar country to engage in work of which they had no knowledge or training, and to live under conditions entirely new to them. There would be hope in the hearts of the relatives and friends of those men that the British people and the mine bosses would be considerate in their treatment, lenient in their judgments, sympathetic and patient in assisting the strangers to adjust themselves to their own environment and make good.

Fortunately for Canada, its sons do not have to go abroad in order to find work and opportunity, because nowhere in the world today is work more plentiful, nowhere do greater opportunities present themselves than in Canada. This very fact should, however, provide a greater incentive to our people to extend a heartening welcome and a helping hand to these British miners.

Judging by numerous statements made by these men, the vast majority of them have come to Canada with the right spirit—a real determination to "make good" and achieve not merely a temporary but a permanent success in this country. They come wholly inexperienced in the work they are to undertake. Instead of working eight hours a day, they will be required to work from early dawn till dark, but the spirit of the men was expressed by one of them on the eve of sailing when he said that eighteen hours at work in the open fields and fresh air of the prairies would not be any worse than eight hours under ground in a coal mine.

Enroute over the ocean, the first group of miners wireless back to the British Government that they were determined to succeed, and at the port of landing in Canada, and again at Winnipeg, Regina, Moose Jaw, and other points of distribution, men after men expressed the same view, namely that they were anxious to make a success in Canada and were hopeful of securing work after the harvest and becoming permanent citizens of the Dominion.

These men by the act of their coming to Canada as harvest hands have shown that they prefer work, even hard unaccustomed toil, to living in idleness on the "dole" in Britain, and every one of them had to pass a rigorous physical examination before being allowed to sail. They are, therefore, the pick of the unemployed miners, and, animated by a desire to "make good" they should succeed if given a fair chance, and a helping hand and encouragement.

That chance, assistance and encouragement should be forthcoming in large measure from the Canadian people as a whole and, in particular, from the individual farmers who employ them. It will be necessary to show these men how their work should be done and how to do it. This will require tact and patience. Too much must not be expected of them. And the man who makes an honest effort to learn, who shows a real determination to work and render service to his employer, is deserving of every encouragement.

Such encouragement cannot be better shown than by a kindly, sympathetic attitude a personal interest in the man's welfare, and, in all cases where it is possible to do so, by the offer of a job for the winter. The knowledge that, if he shows a disposition to make good, he will be provided with work for the winter, and thus given his opportunity to become a permanent settler in Canada, will provide the greatest possible incentive to a man who is desirous of achieving that result. And it is settlers of this British type of which Canada stands in need.

If both parties to this unique experiment strive to make it a success there is no reason why it should not succeed, and if it does prove successful,—its success being judged by the results of the movement as a whole rather than by individual cases—then it will, in all probability, prove the beginning of a new and worthwhile immigration from the congested groups of the unemployed in the British Isles to the open spaces of Canada, where, through their labor, such people will be an important factor in bringing large tracts of vacant lands under cultivation, and in providing the necessary man-power to develop many of the as yet untouched natural resources of the Dominion, thus making comfortable homes for themselves and adding immeasurably to the productive capacity, wealth and prosperity of Canada, and incidentally of the Empire as a whole.

## No Menace To Consumer

British Delegate Returns Home Favorably Impressed With Wheat Pool

"We do not agree with those who see in the pools the menace of a monopoly to the disadvantage of the consumer," writes Henry J. May, general secretary of the International Co-operative Alliance, who was one of the principal speakers at the recent international wheat pool conference.

Mr. May expressed his views in the Co-operative News, published in Manchester, England.

He states that the economy of production on large scale methods, the elimination of the middlemen's profits

## British Immigration

Conference Between Lord Lovat and Ottawa Authorities Brings Results

When the immigration conference between Lord Lovat, head of the Empire Settlement Board, and federal immigration leaders concluded at Ottawa, an official statement was issued, saying "it is confidently expected that the result of these negotiations will be a steady increase in the flow of suitable British migrants to Canada."

The conference discussed various matters arising out of British emigration to and settlement in the Dominion, with particular reference to the measures to be adopted both in Canada and in Great Britain to give effect to the recommendations of the select standing committee of the House of Commons on agriculture and colonization. All these recommendations and other proposals made by Lord Lovat have been fully and frankly discussed, with a thorough appreciation of the difficulties on both sides and in every case a satisfactory understanding had been arrived at, the statement said.

## Heavy Apple Crop

Increase Of Almost 900,000 Boxes Of Apples From Okanagan District Is Indicated

An increase of almost 900,000 boxes in the shipment of apples from the Okanagan fruit district is indicated in a report laid today by T. P. White, superintendent of the service, Canadian National Railways, Winnipeg. The latest estimates indicate that the "McIntosh" crop will amount to 1,252,460 boxes as compared with 758,480 boxes last year, or an increase of 513,977 boxes, or 67 per cent. The total apple crop, which comprises largely the "McIntosh" and the "Wealthy" brands, is expected to amount to 3,928,335 boxes this season, which is an increase of 890,345 boxes over last year.

## BABY GIRL HAD DIARRHEA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes:—Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any...'

why, I wouldn't be without it where there are children."

"My husband went to town and got a bottle, and the very first dose got her wonderfully, and in three days she was well over the diarrhea and was running around as well as ever."

Put up only by The T. Millburn Co., Limited, Toronto, Ont.

**Buffalo At Elk Island**  
Elk Island National Park is a reservation for the preservation and propagation of the buffalo. Some hundred and twenty-six buffalo are now in this park, together with a number of mule deer, elk, and moose.

**A Prime Dressing For Wounds.**  
In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. For better results keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Widows and widowers in all conditions of life want re-pairing.

Don't fail to study yourself, if you would know others.

## Reindeer For Hudson's Bay Area

12,000 Reindeer From Alaska To Be Sent Overland

Shortly after the fawning season is over, 12,000 reindeer will be herded from Alaska to the shores of Hudson's Bay, according to N. A. Branson, of the Dominion Reindeer Company. This is due to the rapid increase of the herd of 1,240 animals started in Alaska thirty years ago. Progress will be slow, the herd traveling about ten miles per day. But first, the shortest route must be found and charted.

## WAS VERY DELICATE

New Health Came Through Using Dr. Williams' Pink Pills

Mrs. Caprice Miller, Lourdes, N.S., says that twice in her lifetime she has reason to be thankful for what Dr. Williams' Pink Pills did for her. She says—"I was a very delicate girl going into womanhood, when I first found benefit from Dr. Williams' Pink Pills. I was a sufferer with cramps and pains every month and was hardly able to move around at all. One day when I was very sick a friend came in to see me, and she said to my mother, 'Why not try Dr. Williams' Pink Pills. I was once very sick, but I was cured by them.' The result was my mother got six boxes and I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again I began their use, and I soon found benefit from them. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. By the time I had taken them all I felt an altogether different girl, and no longer suffered from cramps and pains. Then a few years ago I

## ASK FEDERAL AID FOR HIGHWAYS IN THE WEST

Edmonton.—Launching of a strong campaign for federal aid for highways was expressed at a meeting of the northern directors of the Alberta Motor Association, held here, when A. B. Mackay, provincial president, and Fred R. Brauer, head of the Calgary branch, were also present. This will be following up the request made at the annual convention held last spring when a resolution asking the federal authorities to grant \$50,000,000, which would be spread over a term of five years, was passed. The sum specified would be used for the Dominion and greatly adding to Canada's tourist attractions in that way. The federal grant of \$20,000,000 made in 1919, and now exhausted, was distributed on a basis of population to the various provinces. It is felt that this basis works out unfairly on the far-flung prairies especially, and that it should be apportioned on a mileage basis instead.

President A. B. Mackay is strongly in favor of a vigorous campaign to secure federal aid and feels that there should be no delay in showing the Dominion authorities that there is a feeling throughout the country in favor of such assistance for highway programmes.

### Receives Appointment

Gen. Gough Given Position More in Keeping With His Station in Life

Quebec.—Although he was making expenses and was learning French through contact with other employees at the hotel where he was engaged in washing dishes, Brig-Gen. Charles Henry Gough has decided to accept an appointment more in keeping with his former condition. Thanks to the publicity which he received when an officer of I.M.A.S. Austria, met him here and revealed to a local paper that the former soldier was doing mental work, General Gough has received an offer of an appointment with a company operating a steamship service on the St. Lawrence River in the Gulf.

### May Remodel Liquor Act

British Columbia May Follow Lines of Quebec System

Victoria, B.C.—"We are just stock taking now," Hon. R. P. Pooley, attorney-general, in discussing the proposed liquor act, stated. "We can't say much about things until we have finished that."

The attorney-general intimated however, that there would be lots of action soon and that the proposed act was one that would receive early attention. Conservatives in touch with party leaders have suggested that the British Columbia act may be remodelled somewhat after the lines of the Quebec Act.

### Search Proves Fruitless

Rome.—Extensive searches among the islands off Northeast Land and in Queen Victoria Sea almost as far as Franz Josef Land by various vessels for the missing Amundsen and Italia groups thus far have been unsuccessful, the base ship Conte Di Milano at King's Bay reports. The ice-breaker Braganza has also been taking part in the search.

### Charged With Violating Sales Tax Act

Toronto.—Police acting under orders of the federal government arrested eight men and two women here on charges of violating the Dominion Sales Tax Act. The accused are all officials and employees of manufacturing firms. Bail in each case was fixed at \$5,000.

### Floods in Britain

London.—Abnormal floods are creating much damage to property and roads in Cumberland and Westmoreland while floods in Cheshire have wrought much damage to crops. Harvesting at many points is at a standstill.

W. N. U. 1748

## British Warship Not Welcome

Soviet Government Will Not Permit Warship To Transfer Bodies Of Submarine Crew

Moscow, U.S.S.R.—The Soviet news agency Tass says that in response to a British request through the Norwegian mission to Moscow, that Great Britain be allowed to send a warship to transfer the bodies of the crew of the recently raised submarine L-55 from Leningrad to England, the Soviet Government has replied that it cannot consent to a British warship entering Soviet territorial waters.

The Soviet Government would not object to a warship of a friendly nation such as Norway or a British merchantman coming.

The L-55 was sunk in 1919 while assisting the white Russians against the Bolshevik Government but recently was raised by the Soviet authorities, who found a number of skeletons of British seamen.

### University Women Meet

Membership Of Federation Now Stands At Nearly Two Thousand

Vancouver.—Women's place today her participation in world affairs, and her limitations because she is a woman, were some of the topics discussed at the fourth triennial conference of the Canadian Federation of University Women by Mrs. Bertha Landis, former mayor of Seattle.

Mrs. Landis said that "the woman who deliberately turns her back upon marriage, upon a home and children is making the greatest mistake of her life, but forcing these things upon women only breeds unhappiness for all."

The membership report of the federation was read by Miss Marjorie Gregg, of Ottawa. The various efforts to increase the membership, which now stands at 1,802, twenty-seven affiliations, were outlined.

### Vessels Are Leaving For Hudson Bay

Ship Movements From Montreal To Bay Have Been Numerous This Season

Montreal.—Ship movements from Montreal to Hudson Bay have been fairly numerous this season with departure of dredges, hopper barges and other craft for service at Port Churchill, terminus of the Hudson Bay Railway, where a modern ocean harbor is being developed. Three more vessels sailed recently from the Canadian Vickers shipbuilding plant, comprising another 8,000 ton hopper dredge, Churchill No. 1, which was constructed by that firm, a self-propelling hopper barge. Chesterfield, which was built by the Collingwood Shipbuilding Company and the powerful tug, Dalny, purchased by the Canadian Government from the Irish Free State.

### Banff Motor Highway

Ten Miles Of Bituminous Surfaced Road To Be Built As Experiment

Banff, Alberta.—The entire motor highway from the coast to the western gates of the Banff National Park may be paved with a bituminous surface if experiments now under way under the supervision of J. A. Harkin, commissioner of parks for the Dominion Government, are successful. This information was given out by Mr. Harkin himself.

Mr. Harkin said that the present experiment will include the building of bituminous surfaced roads for five miles east and five miles west of Banff, making ten miles in all.

### Use Niagara Falls As Screen

Niagara Falls, Ont.—An interesting addition to the attractions of Niagara Falls was suggested by Mayor H. P. Stephens who claimed that it was possible to project motion pictures on the American Falls, at a meeting of the committee in charge of the illumination. A special committee will investigate the proposal.

### Will Be Proclaimed King

Belgrade, Jugoslavia.—Transition of Albania from a republic into monarchy is being rapidly consummated, according to advices received here from Tirana and from frontier points. These reports state that Ahmed Zogu, president of the republic, is to be proclaimed king within a few days.

### Police Active At Coast

Vancouver.—Determined to put an end to the epidemic of safe cracking in Vancouver, Acting Chief of Police Dan Leatherdale announced that a powder squad of special constables and armed with search of shotguns will patrol the city each night.

## Alberta Experimental Tests

May Establish Permanent Experimental Farm In Peace River District

Edmonton.—Experimental tests of an extensive nature are being carried on in Alberta, in common with other parts of the west, stated Dr. J. H. Grisdale, of Ottawa, deputy minister of agriculture. In this province, the work concerning grains and grasses is being undertaken on a large scale while growing of autumn range feeds and tobacco is also receiving special attention.

Dr. Grisdale left for a visit to the Peace River country. While in that area, he will likely select a location for a permanent experimental station as the one now operated at Beaver Lodge is held under a lease. After looking over property in the Grande Prairie, Wembley, and Beaver Lodge districts, he will submit a recommendation as to what section should be acquired by the federal government for the development of its permanent work in the north.

## GOVERNOR SMITH STATES POLICY IN VIGOROUS SPEECH

Albany, N.Y.—With all the force at his command Alfred Smith, governor of the state of New York, told an expectant nation what he would do if elected president. In aggressive fashion, he accepted the Democratic nomination with a speech which not only set forth his stand on prohibition, agriculture, foreign relations and other public questions, but accused the Republican administration of a failure to keep faith with the people.

As millions listened-in by radio, the new leader of the Democrats advocated modification of both the Volstead law and eighteenth amendment, reiterated that he would give the problem of controlling crop surpluses his immediate attention if elected, assailed the administration's Nicaragua and Mexican policy, and pledged himself to a "real" endeavor to outlaw war.

He also called for a reorganization of a Federal Government activities on a business basis; declared that neither he nor the Democratic party contemplated "sudden or drastic" changes in tariff schedules; reaffirmed his stand for public ownership and control of waterpower; promised a square deal for war veterans; stressed the need for inland waterway development, reforestation and conservation of natural resources, and advocated "progressive legislation" for the protection and care of working men and women.

While standing "squarely" on the Democratic platform declaration for restrictive immigration, the nominee asserted that he was "heartily in favor of removing from the immigration law the harsh provision which separates families," and was "opposed to the principle of restriction based upon the figures of immigrant population contained in a census 38 years old."

### Labour Premier's Canadian Tour

Ex-Premier Rt. Hon. Ramsay MacDonald at the throat of a Canadian Pacific engine at Schreiber with his daughter Sheila standing in the door of the cab. Miss Sheila had ridden in the engine from Schreiber to Bowlo, Ontario, while on their trip to the West. "It was most exciting," she said. Mr. Ramsay MacDonald and his three daughters were delighted with the scenery of Northern Ontario along the Canadian Pacific main line.

## PROHIBIT ILLEGAL LIQUOR EXPORT

Gordon N. Shaver, K.C., has been appointed by the attorney-general of Ontario to act as special crown prosecutor in the proceedings against liquor export companies at Windsor as a result of seizure of about \$5,000,000 of liquor along the Canada-United States border by the Ontario liquor control board in its fight against illegal export.

### Prosperous Saskatoon

City's Financial Position Never Better Than At Present Time

Saskatoon, Sask.—Saskatoon's financial position was never better than at the present time. Due to better tax collections, the city has entirely wiped out its current loans from the bank and has on deposit today approximately \$80,000.

This is the first time in the history of the city that this condition has existed and it is said to be due entirely to the improved business conditions experienced here.

Earlier in the year there was one occasion when the city was able to wipe out its current bank loans, but there was no surplus.

### Eye Tests For Motorists

Suggest Tests For Visual Efficiency For Drivers In Saskatchewan

Saskatoon, Sask.—Something of practical value and of more than passing interest to Saskatchewan motorists is being negotiated by the Saskatchewan Optometric Association in session here.

Harry S. Hay, Saskatoon, has submitted to the meeting a proposition whereby a test of visual efficiency for drivers would be possible.

The association appointed a committee to conduct a thorough investigation of the visual tests to which drivers are subject. This committee will make its report at the next meeting.

### Support For Stresemann

Berlin, Germany.—Foreign Minister Stresemann, meeting with the new German cabinet for the first time since his recent illness, made an extensive report on the foreign situation with emphasis on the forthcoming renunciation of war treaty ceremonies at Paris and the League of Nations meeting at Geneva. He found the cabinet members in accord with him.

## Advice To Dairymen

Hon. C. M. Hamilton Says Industry Here Is Not Behind Other Countries

Ottawa, Ont.—Bringing back some friendly advice for Canadian dairymen, Hon. C. M. Hamilton, minister of agriculture in Saskatchewan, reached Ottawa. He is returning from the world's dairy conference in London, where 1,800 delegates represented nearly every country in the world.

"Canadian dairying," Mr. Hamilton observed, "does not appear to be behind other countries in the line of production and manufacturing. The main difficulty seems to be in the uniform high standard of the herds. In that, we are somewhat lacking but it is not surprising since in a number of the provinces, dairying is largely a side line."

"To establish ourselves in the British market, as producers of butter or cheese, bacon or any other agricultural product, we must not only place on the market the highest quality but also a steady volume. Merchants whose customers have developed a taste for a certain thing, want to be able to supply it continuously and that is where we sometimes fall down."

Mr. Hamilton tells of the Hon. W. R. Motherwell's travels. He has motored all over the British Isles and is going to France, Belgium, Germany, Italy and finally up to Scandinavia countries to see if there has anything on us in the line of agriculture.

### Joins Scottish Club

Lord Lovat Becomes Honorary Member Of Club In Toronto

Toronto.—A distinguished Scot was added to the honorary membership of the Scottish Club of Canada, when the club honored Lord Lovat, parliamentary under secretary for Dominion Affairs, who is in Toronto for the purpose of conferring with the Ontario government on immigration matters. In accepting the honor his lordship reminded the membership that they could do much good by extending a friendly hand to boys who come out from the British Isles.

### Less Drunkenness in England

Convictions Show the Lowest Total For Nine Years

London, Eng.—According to the official statistics of convictions for drunkenness in England published today, the most sober city in the Kingdom is the most important seaport Plymouth and the city with the most proportionate convictions is the pretty but rather sleepy cathedral town of Norwich, in Norfolk.

Convictions throughout the country totaled 69,000 during the year, a decrease of 1,900 and the lowest total in nine years.

## MIGRATION PLAN IS ESSENTIALLY BRITISH PROBLEM

Toronto, Ont.—While the province of Ontario is willing to co-operate in every possible way in bringing the immigration scheme suggested by Lord Lovat to fruition, Premier Ferguson expressed the opinion that the matter was essentially a British rather than an Ontario problem.

Discussing the conference held with Lord Lovat in his office here, the premier stated that he looked forward with great optimism to the final result although he admitted that the paramount question of finance had not been definitely settled.

The premier pointed out that the Ontario government was already lending money to Ontario farmers and financing settlers in Northern Ontario.

Under the scheme the British government is working directly with the Dominion Government and financial details are being worked out between these two governments.

"Would the British Government be willing to finance the scheme if Ottawa decided not to enter into agreement," the premier was asked.

"That is what we were discussing yesterday," replied the premier. "It will also be a subject of further conference when I meet Lord Lovat again. The British Government is willing to assist in financing the men and I gather from Lord Lovat that the discussions at Ottawa have been satisfactory."

## PRINCE GEORGE GREETS YOUNG AMBASSADORS

Vancouver.—His Royal Highness Prince George was greeted here just before he boarded his ship, H.M.S. Dufour, by four members of the Empire ambassador party now touring Canada and by the organizer of the tour, Frank Lascoe.

The prince expressed great interest in the tour of the young ambassadors and said that both he and his brother the Prince of Wales were conversant with it, the latter having been identified with the scheme. His Royal Highness was particularly interested to learn it was planned to extend the tour to other parts of the Empire in the future.

The prince chatted with each member of the party. He was told that many of the delegation were planning to give lectures and write newspaper articles concerning the tour upon their return.

Prince George, in bidding the group farewell, expressed the belief that their visit would do a great deal of good for Canada and the Empire generally.

### Receives Message From Missing Aviators

Amateur Radio Operator In Communication With Greater Rockford Crew

Toledo, Ohio.—A long message purported to be from the crew of the Greater Rockford, was received by Joseph E. Williams, an amateur radio operator, who declared he was in direct communication with the crew for ten minutes.

The crew said, according to Williams: "We are stranded on a small island 100 miles north of Newfoundland. We are Rockford to Sweden flyers. We need assistance badly. Please do all in your power to get help to us."

Williams then said he conversed with a member of the crew and in reply to a further question, said: "Just say we are safe and well."

Then, Williams stated, the message was garbled and all he was able to catch was, "because we haven't had any deer meat since yesterday."

The communication ended, Williams stated, with "have been trying to get in touch with me station all night. Please hurry."

Williams declared the message was received on a wavelength of 42.3 metres at his station SAME. He was talking directly with the call letters of the Greater Rockford's radio station.

He stated that he first received faint signals at 11:30 and at 11:45 he could hear the sender distinctly, although the interference was bad.

### Refused To Fly With Lindbergh

Little Girl Has Disinclination Of Being First One To Pass Up Chance

Wabash, Ind.—Marilyn Lochwood, 9, granddaughter of Mrs. Eva Pettit, turned down a personal invitation of Colonel Charles Lindbergh to take a flight in a plane with him as pilot.

Answering the Colonel's request, the little girl said: "I never fly with anyone but my dad."

Lindbergh said: "Young lady, you have the distinction of being the first person to refuse to fly with me."

### Canadian On Byrd Expedition

Montreal, Que.—Frank T. Davies, who graduated as master of science at McGill last spring, will accompany Commander Byrd's Antarctic expedition as chief physicist, on the recommendation of Dr. Howard Barnes, acknowledged ice authority. Davies will work on ice observation, the aurora borealis, research, radiation, magnetism and atmospheric electricity.

### Hints At Separate Agreement

Toronto.—Premier Ferguson says that Britain must finance her own immigrants, following his discussion with Lord Lovat. He said, however, that in the event of the Federal Government not entering into satisfactory arrangements with Lord Lovat, Ontario might make her own pact with the British Government.

### Overcome With Fumes

Montreal.—Four stowaways who accompanied the Italian ship, the hold of an Italian ship in port here shortly after the vessel had been detected are at the Notre Dame Hospital in a serious condition suffering from potassium poisoning.

## Take a Ride and you will know

ONE of the most spectacular achievements in automotive history is the manner in which today's "Bigger and Better" Chevrolet is increasing its margin of leadership as the world's largest builder of automobiles.

Come, take a ride! Learn the reasons why people prefer Chevrolet.

Know Chevrolet performance! Wherever hills are steepest, the fame of the Chevrolet motor is greatest—because it is built on the valve-in-head principle, which provides all the power advantages of overhead direct firing.

Chevrolet's delightful smoothness is achieved by the use of invar-strut alloy pistons, and by the accurate balancing of reciprocating parts.

Chevrolet flashes out and away when you open the throttle because it offers the advantages of light invar-strut pistons, large valves, and carburetor equipped with an acceleration well.

Come, take a ride—today!

UC-25-A-12C

The G.M.A.C. General Motors' own deferred payment plan affords the most liberal and economical way of buying your Chevrolet on time.
